To Whom it May Concern

I, Natasha McMillen am petitioning the court in regards to law 52-06-02 of the North Dakota Unemployment Benefits.

The paperwork that I am providing is a majority of the correspondence on record with the North Dakota Unemployment Office.

My understanding is that my appeal was denied because I had not updated my address through the website which is why I ~~did~~ did not know that Express had filed an appeal and I had not received that documentation through the mail. I had been employed here in Missouri through Einabus LLC since the beginning of January and had not gotten back on the North Dakota Unemployment Website. I was not expecting to end back up on unemployment but due to the Coronavirus I tried filing again. This is the time that I found out I missed the Appeal date.

My position is that even though I missed the Appeal date under North Dakota Law 52-06-02 I am still entitled to my unemployment benefits. I have provided that I have made more than 8 times my weekly benefit amount which falls under letter A of 52-06-02. I ~~also~~ also have provided a letter from my employer which states that due to the Coronavirus our company closed.

I do not understand why I am not
recieving my benefits and would like the
last appeal to be reviewed in regards
to this law. I had sent those documents
in with that appeal as well.

Thank You,

Natashe McMiller
